Qualtrics is a dynamic online survey tool available to all Thomas Jefferson University and Health employees, including faculty, staff, and students, for Jefferson-related projects.

The Research Suite offers tools to build surveys that fulfill a variety of needs. You can use this tool to build surveys, distribute surveys and analyze responses, all from one convenient online location! With Qualtrics you can create mobile-friendly surveys and export data directly to SPSS, CSV, PDF, Word, Excel, and PowerPoint.

Want Help Using Qualtrics?

Please review the help guides and training resources available via the Qualtrics Support Page.

Get started using helpful tutorials. Click here to access help materials.

You'll learn about:
• Creating Surveys
• Distributing Surveys
• Survey Data and Analysis
• Creating Reports

Note to Survey Distributors:

Use of other tools such as Survey Monkey, Survey Gizmo, etc... should be discontinued for Jefferson related activities. Survey data captured under the Jefferson Qualtrics License is protected and HIPAA compliant. However, PHI, PII or other identifying data should not be collected and stored in Qualtrics unless approved by a Jefferson governing body.

QUALTRICS FAQs

Here are a few links to FAQs into the various regions of the platform:

Account Settings

Log in with your Campus Key and Password

at http://jefferson.qualtrics.com
